CHEFS IN SCHOOLS MEMBERSHIP

**CHEF-LED SUPPORT, FRESH IDEAS AND INSPIRING
DEVELOPMENT FOR SCHOOL KITCHEN TEAMS.**

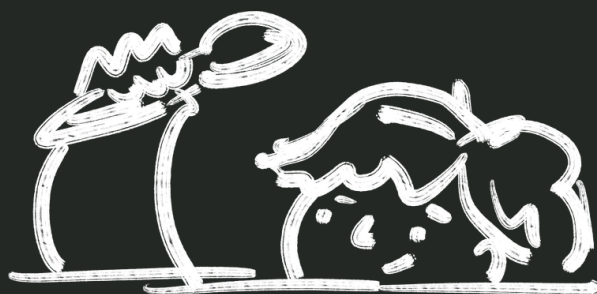

Running a school kitchen is one of the most important - and most undervalued - jobs in education. You're feeding hundreds of children every day, navigating tight budgets, demanding standards, and a team that needs leading as much as it needs supporting.

**YOU SHOULDN'T HAVE
TO DO IT ALONE.**

Chefs in Schools Membership brings together school kitchen teams from across the country through one connected national community. Built specifically for school kitchens, it combines practical expertise, networking, professional development and peer-to-peer learning to help teams stay inspired, supported and continually developing throughout the year.

Whether you are a head chef looking for fresh inspiration, a catering manager wanting practical support for your team, or a trust leader focused on developing kitchen teams across multiple schools, Membership is designed to help schools learn, connect and grow together.

Open to schools anywhere in the country, Membership combines online learning, events, networking and chef-led support through one connected community.

**BETTER SCHOOL FOOD
STARTS WITH CONNECTED
KITCHEN TEAMS.**

WHY SCHOOLS JOIN MEMBERSHIP...

To provide the exact level of support, training and guidance your school kitchen team needs, we offer three distinct tiers of membership, scaling from foundational community access to hands-on kitchen development.
